

FUTURE OF URBAN TRANSIT

# VerseBikes Mobility Program

A Structured Approach to Scalable Urban Cycling

[www.versebikes.com](http://www.versebikes.com)

# The Mobility Ambition

## Creating Sustainable Urban Ecosystems

Cities and organizations worldwide are working to create inclusive, reliable mobility systems. We bridge the gap between shared bike programs and daily transit needs.

- ✓ Strengthened mobility layers for daily users
- ✓ Predictable service levels and vehicle care
- ✓ Integrated networks for maximum resilience

# The VerseBikes Solution

## Long-Term Access

Dedicated long-term subscriptions designed for residents, students, and employees. Ensures high availability for primary daily commuters.

## Short-Term Flexibility

Options for 4-hour and 24-hour rentals tailored for tourism and seasonal events. Supports peak demand during major city activities.

# What VerseBikes Delivers

## Fleet Hardware

Fleet-grade bicycles and e-bikes  
engineered for durability.

## Software Stack

Integrated user and admin  
software for full fleet control.

## Operational Framework

Technical support, service  
documentation, and training.

# Integrated Bike Platform

Our fleet is built for the rigors of urban life, supporting a wide range of users through specialized hardware configurations.

- ⚡ **E-Bikes:** Ideal for daily travel and first/last mile.
- 📦 **Cargo E-Bikes:** Perfect for logistics and utility transport.
- 🛡 **Fleet Grade:** Standardized components for easy maintenance.

# Our Software Approach

## Seamless Digital Ecosystems

VerseBikes software integrates directly into your existing systems with two deployment paths:

**White-label Solutions:** Branded rider and admin apps.

**Full API Integration:** Hook into your existing backend.

**Data Ownership:** You retain all KPIs and usage data.

# Maintenance & Service Model

-  **Technical Training:** Programs for your operational staff.
-  **Service Manuals:** Standardized toolings and workflows.
-  **Spare Parts:** Long-term lifecycle and availability planning.
-  **Local Network:** Framework for local bike shop approval.

“

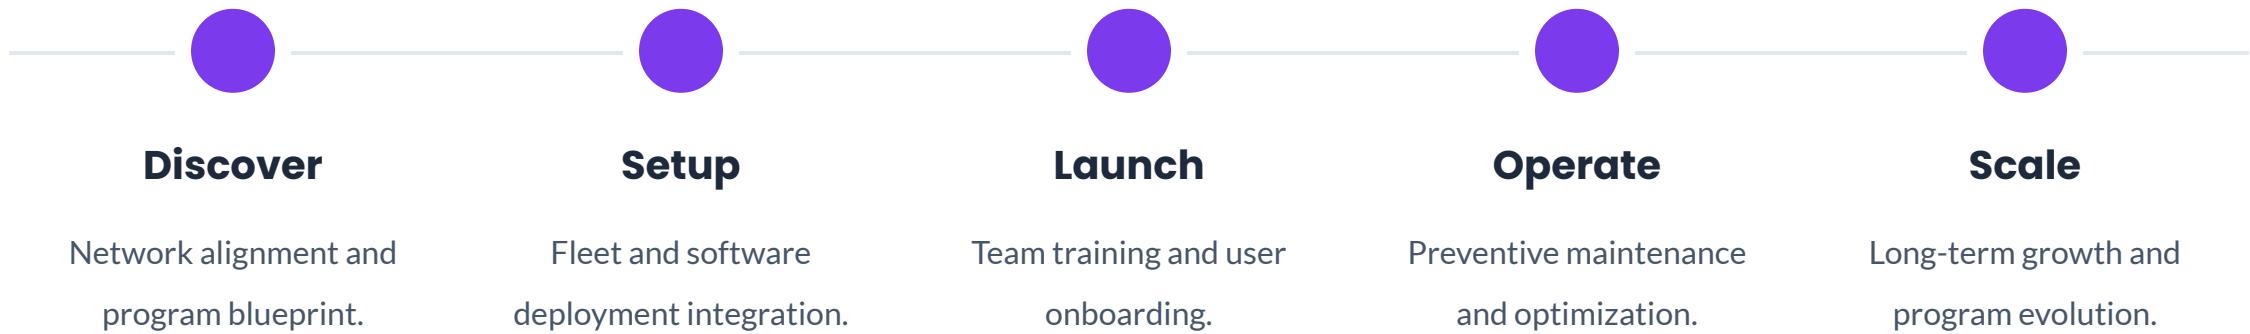

*“VerseBikes provides the systems and expertise needed to operate reliable, scalable e-bike programs that remain **valuable and future-proof** long after temporary events conclude.”*
